

Professional appliances - BW-REC

Rates valid as of 3 January 2007

www.recupel.be
0800 40 387

These sheets can also be consulted at www.recupel.be

As of January 2007 Recupel will also collect professional appliances. Just as for household appliances, each professional appliance will be assigned a Recupel contribution. Here you will find the product categories and definitions for the professional appliances in the BW-REC sector as well as the respective Recupel contribution. This Recupel contribution only covers the costs for administration, reporting and communication.

An appliance can be included in this list if it is an appliance for sole professional use or because the properties of the professional appliance are such that it does not fall under the criteria of its household equivalent.

1.51. Professional large white goods

€ 0.3306 excl. VAT

€ 0.4000 incl. VAT

Professional appliances - ICT

Rates valid as of 3 January 2007

www.recupel.be
0800 40 387

These sheets can also be consulted at www.recupel.be

As of January 2007 Recupel will also collect professional appliances. Just as for household appliances, each professional appliance will be assigned a Recupel contribution. Here you will find the product categories and definitions for the professional appliances in the ICT sector as well as the respective Recupel contribution. This Recupel contribution only covers the costs for administration, reporting and communication.

An appliance can be included in this list if it is an appliance for sole professional use or because the properties of the professional appliance are such that it does not fall under the criteria of its household equivalent.

4.51. Professional ICT appliances

€ 1.000 excl. VAT

€ 1.2100 incl. VAT

DEFINITION

Professional ICT appliances include the following:

All electrical or electronic products or appliances intended for:

- The electronic collection, storage, processing, presentation or communication of information;
- The transmission through telecommunication of sound, images or other information, other than those referred to in the ICT sector's product list for household electrical or electronic appliances.

The illustrative lists can be found through the product search engine at www.recupel.be/contribution/product lists

4.52. Dispensers

€ 1.000 excl. VAT

€ 1.2100 incl. VAT

DEFINITION

Dispensers include all electrical or electronic dispensers for all manner of products (including cash) except those for food products (referred to in the product list for the professional BW-REC sector).

Weight definition:

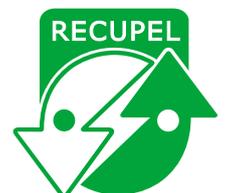

Weights mentioned in the product list refer to the total weight of the product and accessories, i.e., components, subunits, and consumable goods, sold together with the product as a single item number, including cables, but excluding packaging material, manual and batteries.

This weight is considered to be equal to the weight mentioned in a catalogue and/or technical sheet made available by the producer. Without which the sales invoice or other sales documents can be used, supplied by the producer, or a document certified by an independent company auditor as refutable evidence of the weight.

The illustrative lists can be found through the product search engine at www.recupel.be/contribution/product lists

5.51 Professional electrical and electronic (garden) equipment

€ 1.6529 excl. VAT

€ 2.0000 incl. VAT

DEFINITION

Professional electrical and electronic (garden) equipment is equipment that belongs to one of the categories referred to below, yet does not form part of large, immovable industrial facilities:

- Equipment for mowing and other garden activities other than those referred to in household category 5.1.;
- Equipment for drilling and sawing other than that referred to in household category 5.2.;
- Equipment for turning, milling, sanding, polishing, sawing, clipping, cutting, drilling, making holes, punching, folding, bending or similar processing of wood, metal and material other than that referred to in household category 5.2.;
- Equipment for welding, soldering or similar use other than that referred to in household category 5.2.;
- Equipment for the atomising, spreading, dispersing or other treatment of liquids or gases;
- Laser levels;
- Professional starters for automobile batteries;
- Industrial cleaning machines.

Pneumatic (garden) equipment is NOT included in this product list

The illustrative lists can be found through the product search engine at www.recupel.be/contribution/product lists.

Recupel recycles your electrical and electronic appliances.

Below you will find the rates valid **as of 3 January 2007** for medical aids and laboratory equipment. This contribution is an all-in contribution and covers both the costs for collection and processing of the discarded appliances and the costs for reporting, communication and monitoring. The contribution for testing and measuring equipment, however, is an administrative contribution. This contribution only covers the costs for reporting, communication and monitoring. Costs for collection and processing are only calculated at the time the old appliance is discarded.

An appliance can be included in this list if it is an appliance for sole professional use or because the properties of the professional appliance are such that it does not fall under the criteria of its household equivalent.

For a full overview of all appliances in the MeLaRec sector, visit www.recupel.be/sectors/MeLaRec

Professional medical aids

This contribution is an all-in contribution and covers both the costs for collection and processing of the discarded appliances and the costs for reporting, communication and monitoring.

7.52. Professional medical aids 0 - < 5 kg	€ 1.6000 excl. VAT	€ 1.9360 incl. VAT
7.53. Professional medical aids 5 - < 10 kg	€ 1.9000 excl. VAT	€ 2.2990 incl. VAT
7.54. Professional medical aids 10 - < 50 kg	€ 3.6000 excl. VAT	€ 4.3560 incl. VAT
7.55. Professional medical aids 50 - < 150 kg	€ 8.7000 excl. VAT	€ 10.5270 incl. VAT
7.56. Professional medical aids 150 - < 500 kg	€ 25.2000 excl. VAT	€ 30.4920 incl. VAT
7.57. Professional medical aids ≥ 500 kg	€ 74.6000 excl. VAT	€ 90.2660 incl. VAT

DEFINITIONS

Professional medical aids include the following:

All instruments, devices or appliances, all substances or all other items – not including accessories – requiring electrical power, used alone or in combination and for the following purposes:

- Diagnosis, prevention, monitoring, treatment or alleviation of illness;
- Diagnosis, prevention, monitoring, alleviation or compensation of injuries or handicaps;
- Research into or replacement/change in the anatomy of a physiological process;
- Management of fertilisation, whereby the major intended aim is not achieved through pharmacological or immunological means or through metabolism, but that can be supported by such means.

The illustrative lists can be found through the product search engine at www.recupel.be/contribution/product lists

Professional medical aids for in-vitro diagnostics are the following:

Any medical aid – not including accessories – that is a reagent, reactive product, calibration material, monitoring material, kit, instrument, appliance, device or system used separately or in combination and that is intended by the manufacturer to be used for the in-vitro examination of specimens, including donor blood and tissue, exclusively or primarily aimed at providing information:

- about a physiological or pathological condition; or
- about a congenital defect; or
- with which the safety and degree of compatibility with potential recipient can be determined; or
- to test the effect of therapeutic measures.

The illustrative lists can be found through the product search engine at www.recupel.be/contribution/product lists

Professional laboratory equipment

This contribution is an all-in contribution and covers both the costs for collection and processing of the discarded appliances and the costs for reporting, communication and monitoring.

7.62. Professional laboratory equipment 0 - < 5 kg	€ 1.6000 excl. VAT	€ 1.9360 incl. VAT
7.63. Professional laboratory equipment 5 - < 10 kg	€ 1.9000 excl. VAT	€ 2.2990 incl. VAT
7.64. Professional laboratory equipment 10 - < 50 kg	€ 3.6000 excl. VAT	€ 4.3560 incl. VAT
7.65. Professional laboratory equipment 50 - < 150 kg	€ 8.7000 excl. VAT	€ 10.5270 incl. VAT
7.66. Professional laboratory equipment 150 - < 500 kg	€ 25.2000 excl. VAT	€ 30.4920 incl. VAT
7.67. Professional laboratory equipment ≥ 500 kg	€ 74.6000 excl. VAT	€ 90.2660 incl. VAT

DEFINITION

Professional laboratory appliances and equipment include the following:

All electrical or electronic appliances, not including accessories, used for the taking, preparation, analysis, dosage, synthesis, characterisation, identification, diagnostic analysis and quality control of samples in situ or in laboratories (such as laboratories for medical and clinical analyses, laboratories for biology and biochemistry, industrial or control laboratories, research centres, laboratories at schools of higher education/universities/ educational establishments, etc.).

Electrical and electronic products – except batteries – subjected to another return obligation (e.g., PCs or screens) and that form part of a total system are exclusively subjected to the MeLaRec contribution. In the event of finished products that are not fully and sustainably integrated, only the other Recupel contributions apply that are in force even if they are sold together or delivered at the same time.

The illustrative lists can be found through the product search engine at www.recupel.be/contribution/product lists

Professional testing and measuring equipment

This contribution is an administrative contribution and only covers the costs for reporting, communication and monitoring. Costs for collection and processing are only calculated at the time the old appliance is discarded.

7.80. Professional testing and measuring devices ≤ 2 kg	€ 0.8264 excl. VAT	€ 1.0000 incl. VAT
7.81. Professional testing and measuring devices > 2 kg	€ 2.5620 excl. VAT	€ 3.1000 incl. VAT

DEFINITION

Professional testing and measuring equipment include the following:

All electrical or electronic appliances, not including accessories, intended for the taking, preparation, analysis, generation, synthesis, characterisation, identification or quality control of electrical, electronic physical and/or optical signal parameters.

The illustrative lists can be found through the product search engine at www.recupel.be/contribution/product lists
